	• GPA: 7.70	

Experience

HD Media Network, Backend Developer Intern　　　　　　　　　　　　　　　　　　　Jaipur, Rajasthan
Jan 2025 – Present

Projects

BOGO - App: Click here ⧉

- The BXGY (Buy X, Get Y) app for Shopify helps merchants create and manage promotional offers easily.

- Built with **Node.js, Express, MongoDB, and Shopify integration**, it allows store owners to set up flexible "Buy X, Get Y" discounts.

- The app makes it easy to apply discounts seamlessly, keeps data in sync in real-time, and provides a user-friendly dashboard for smooth promotion management.

Full Authentication System App: Click here ⧉

- A secure **user authentication system** built using **Node.js, Express, and MongoDB**.

- Provides a robust authentication flow, including **user registration, login, password reset, email verification, and session/token management**.

- Implements best security practices such as **password hashing** and **JWT-based authentication**.

To-Do List Application: Click here ⧉

- Developed a **To-Do List application** using **HTML, CSS, JavaScript, and React** for the frontend.

- Backend is built with **Node.js, Express.js, and MongoDB** as the database management system.

- Enables users to **add, update, delete, and track tasks efficiently**.

Technologies

Languages: JavaScript

Web Technologies: HTML,CSS and JavaScript

Back-end Technologies: Node Js , Express Js

Development Tools: Postman , Microsoft Visual Studio , MongoDB Compass

Certifications

- JavaScript Full Course From Learn Tube
- Node Js, Express, MongoDB: The Complete Bootcamp From Udemy

Strength

- Hard Working
- Honest & Punctual

Languages

- Hindi
- English
